INENT IOWA MASON DEAD. Dyrus W. Eaton of Codar Rapids Pa

Away After a Long Illness. CEDAR RAPIDS, May 18.—Cyrus Walliness of several months, at the age of

67 years. Mr. Eaton came to Cedar Rapids in 1869 and has been one of her foremost citizens, having three times bee elected mayor. He was also prominent in Masonic circles, becoming a Mason in 1865. He has since occupied various responsible positions and filled them all with honor. In 1882 he was eminent commander of Apollo commandery of this city when its first encampment was held in this city, and that year was elected grand generalissimo. In 1988 he headed the pilgrimage to the grand encamp-ment at San Francisco. He was made deputy grand commander of Iowa in 1889, and the next year was elected grand commander. When El Kahir temple, A. A. N. M. S., was instituted he was chosen illustrious potentate, and been re-elected to that chief position each year. He has attended all the conventions of the imperial council and at the meeting in Denver last year he was | very great. elected imperial assistant rabbau.

Iowa Railroads at War.

DES MOINES, May 13.—The Des Moines Union and the Des Moines and Kansas City roads had a war over the laying of a side track to the big elevator of L. Mott. The Des Moines Union had the work nearly finished before the Des Moines and Kansas City thought of the scheme. Several cars were run into the new work and ditched. The Des Moines and Kansas City ditched an engine in doing this, and the Des Moines Union hitched an engine to the cars and pulled them away. The employes came near fighting over the matter, but the police stopped the row.

Ottumwa Man Hurt. ANITA, Ia., May 13.-A carpenter coming into town to work found Fred Parker of Ottumwa laying by the track unconscious, with his face and head cut and covered with blood. He became conscious once and told his name and residence. Nothing can be learned as to how he was hurt.

For Failing to Whistle at Crossings. TEKAMAH, Neb., May 13.-A novel case has just been filed in Burt county court. It was begun by Alonzo B. Miller of Lyons, Neb., against the Omaha Railway company. The plaintiff sues for \$78,900. The section under which Miller brings his action provides a fine of \$50 for every failure to whistle at the informant. Miller resides on a farm near a railroad crossing and has kept an account of such failures to blow the sists of 526 sheets of typewritten legal rado. cap. The farmer has retained good counsel and evidently intends to get some money or thoroughly test the law.

ALL SECTIONS SUFFERED.

St. Paul, May 13 .- Frosts last night caused much damage to the Minnesota wheat crops, early spring seeming to be a blessing with a string to it. At Virginia, in the northern part of the state. four inches of snow fell yesterday and was prevailing upon Lake Superior last night. In the southern part of the state grain and vegetables were well advanced, the season being nearly one month earlier this year than usual, and it is feared that the damage has been

CHICAGO, May 18.—Reports from many points in the northwest are to the effect that considerable damage was done to small fruits and vegetable crops by frosts. Corn in some places has been badly injured, but may yet be replanted. Other grains are said not to have suffered much. Kansas escaped the ravages of frost except in the southern part of the state and the low lands generally along the Arkansas, Wainut and Kansas rivers and tributaries. Secretary Coburn of the agricultural department has heard from but few localities in the state, and these refer generally to the frost of Friday night, which was severe on vegetables, small fruits and small grain in a few localities along the Arkansas valley.

The Chicago, Rock Island and Pacific has received reports from more than 100 agents at stations along its lines in central, northern and eastern Kansas. which show frost was severe on vegetables and garden plants, that the fruit was not materially damaged and that the wheat and other small grain generally escaped and was not injured except in a few localities. Discouraging reports continue to come in from eastern and central Kansas about the ravages of chinch bugs in the wheat fields. President Potter and Secretary Coburn of the agricultural department believe Kansas will raise more wheat this year than last, the total yield of 1894 being less rains come soon and the chinch bug invasion can be arrested, the Kansas wheat crop will be below that of any season during the past 15 years. Not much damage was done in Illinois and reports from many points in Michigan says that although there was heavy frost, the damage done, so far as

learned, was light. The weather bureau in a report on the frost says: The frost reported is unusually extensive and severe for this time of the year, frost having occurred in 15 states. In the peach belt of Michigan, the cranberry marshes of Wisconerossings, one-half of the fine to go to son, temperatures below freezing occurred and the frost was of a killing nature. Frost of more or less severe nature occurred throughout the lake whistle of passing trains between May region and the upper Mississippi valley, 4, 1894, and Aug. 9, 1894, and noted on the east slope of the Rocky moun-1,578 such failures. Shakers Will Try California, SAN FRANCISCO, May 13 .- Arthur Dowe is engaged in missionary work for the purpose of establishing a colony of Shakers on the Pacific coast. It is proposed to erect a church here to be an exact copy of the one now being used by the community at East Canterbury, N. H., having a seating capacity of several hundred and apartments sufficient to accommodate at least 100 people. When the work on the coast has progressed a little farther a few prominent eastern Shaker leaders will come to San Francisco and begin actively the work

of establishing the community. Chinese Loan Arranged. LONDON, May 13 .- A dispatch from Paris says that in the negotiations for the Chinese loan Germany has formed a powerful group which is inclined to issue the loan on condition that the customs and other receipts shall be controlled by Europeans. RED PLAG WILL BE BARRED, Chicago Trades Unions Will Celebrate the

COLUMBUS, May 13 .- The American trade unionists of Chicago, said a leading labor man, are tired of having their names made synonymous for anarchy, and will calebrate the Fourth o July in a truly American manner. The red flag, bombast and all other absurdities will have no place in their festivities. Last week a committee of three waited on Governor McKinley and invited him to make a speech as the representative of the Republican party. They informed him that Vice President Stevenson or Senator Palmer would be invited as the representative of the Democratic party, and they, with a few American labor leaders, would speak for and to American labor in Chicago on July 4. The governor took the matter under advisement, and W. Lewis, commissioner of labor. Secretary McBryde of the mine workers was appointed to make inquiries regarding the demonstration on behalf of the governor. These gentlemen informed the committee that as Vice President Stevenson and Senator Palmer belonged to Illinois, they must secure the services of either of those gentlemen before the committee here could advise Governor McKinley to accept. This morning Secretary McBryde received a letter from Chicago informing him that the committee had seen the vice president and that he would give an answer on the 27th. If the vice president accepts it is probable that on the Fourth of July next the next president will address the laboring people of Chicago, as Stevenson and McKinley are presidential

Destitution Among Miners. COLUMBUS, O., May 13.—President Penna, of the National Mine Workers, left here today to attend the joint meeting of coal operators and miners of Indiana at Terre Haute, May 14. Vice President Cameron will remain in Pittsburg and Secretary McBride at Columbus to keep posted on affairs in the respective fields. It is know here, as heretofore outlined in these dispatches, that considerable destitution exists among the miners in nearly all of the states, and it is probable that this will cut an important figure in adjusting the differences between the miners and operators.
